Hi Robin,

I found the audio interview with the Winthrop Harbormaster on your website extremely informative. There is nothing out there that provides anything like this. I liked how I could listen to what was happening with the town pier while working at my desk.

I would recommend the site for anyone who is interested in gaining a better insight on waterfront issues affecting the town. Often there is a lot of misinformation floating around, and this helps to get news straight from the source.

I hope to see more of this type of content on the website in the future!

Robin,

I loved the interview you did with me. You asked the questions that people have been asking, in a professional manner, and we were able to provide accurate answers to those questions. I encourage anyone interested in the Harbormasters Dept and operations of the harbor to spend a few moments and take in that interview.
